## Overview

---

Westinghouse, based in the United States, will invest between €13 and €15 billion in the construction of a new nuclear power plant in Jaslovske Bohunice, western Slovakia.

Westinghouse, based in the United States, will invest between €13 and €15 billion in the construction of a new nuclear power plant in Jaslovske Bohunice, western Slovakia.

Westinghouse's strong presence in Slovakia goes back nearly a decade and has included contracts for decommissioning of the Jaslovské Bohunice nuclear power plant (NPP) and supplying nuclear fuel to Slovak power plants. We continue to strengthen our involvement in the country with a possible AP1000®.

How does 6W market outlook report help businesses in making decisions?

6W monitors the market across 60+ countries Globally, publishing an annual market outlook report that analyses trends, key drivers, Size, Volume, Revenue, opportunities, and market segments. This report offers comprehensive.

From Left: Aziz Dag - Sr Vice President and Managing Director of Westinghouse Electric Sweden; Lukáš Maršálek - Deputy Director for Accounting, Finance and Control Department of Slovenské elektrárne; Tarik Choho - Westinghouse President of Nuclear Fuel; Branislav Strýček, Director general of.

Westinghouse Electric Company signed a long-term agreement with Slovenské elektrárne to license and supply VVER-440 fuel assemblies to its nuclear power plants in Slovakia. Westinghouse said the agreement “supports Slovakia’s energy security and diversification of nuclear fuel.” Slovakia has five.

Westinghouse Electric Company has announced the signing of memorandums of understanding with Slovak state-owned nuclear company Javys for the potential deployment of AP1000 reactors and AP300 small modular reactors. Westinghouse said Slovakia is evaluating an expansion of new nuclear energy with.

Slovakia has five operational nuclear reactors, with a combined net power capacity of 2,308 MWe, with a sixth coming on line shortly. [citation needed][when?

] Within the EU, Slovakia is one of the pro-nuclear Visegrád Group nations. [1] In 2018, nuclear power produced approximately 55% of the.
