

# 4 hours 2 hours solar battery cabinet

## Overview

---

Do heavy batteries need a solar battery box?

Heavy batteries demand a solar battery box with extra strength and durability. In order to protect outdoor batteries from weather and damage, Bison Profab manufactures custom NEMA 3R enclosures.

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

Do solar batteries need air flow control?

Solar batteries require certain conditions to maintain their productivity and also require air flow control provided by louvered vents, not just for cooling the solar battery enclosure, but also for the release of potential gases that the solar battery gives off.
