

500kWh Off-Grid Solar Energy Storage Unit for European Field Operations

Overview

What is a 500 kw/250 kWh battery energy storage system?

Contact Us 8776032801 500 kW/250 kWh Battery Energy Storage System: A greener solution for on-grid and off-grid applications, designed to optimize costs and reduce emissions.

What is a p500e energy storage system?

The P500E has a modular design with a built-in STS and transformer. With the P500E, you can transfer energy bi-directionally to the battery, grid and DG, helping you to achieve more functionality and maximise the benefits of your energy storage system.

What are battery energy storage systems?

Our Battery Energy Storage Systems help you reduce fuel usage, lower emissions, and improve efficiency — but they're just one part of our integrated approach. Aggreko delivers modular solutions tailored to your site's demands, from temporary power and electrical distribution to HVAC, cooling, and compressed air.

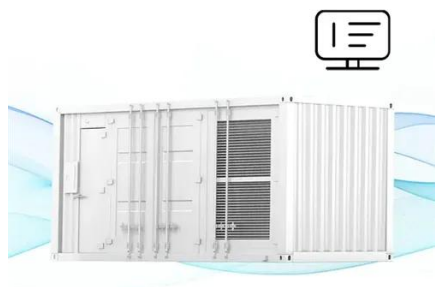

What is a 500 kW battery?

Built for rapid deployment, our 500 kW capacity batteries are a fast way to increase your efficiency, on or off the grid. Packaged with everything you need – from fire protection to HVAC – they're an effective way to store and reuse energy, increasing your flexibility while reducing fuel consumption.
