

Appearance of air-cooled 50kw energy storage cabinet

Overview

●It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the top, and has good waterproof performance.

●It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the top, and has good waterproof performance.

The Sunway 50kW/100kWh Outdoor Energy Storage System integrates high-performance lithium iron phosphate batteries, modular PCS, intelligent energy management, and a robust power distribution system—all within a weatherproof, front-maintenance cabinet. Designed for rapid deployment and flexible.

The 50kW Smart Energy Storage Air-Cooled Integrated Cabinet, designed for commercial and industrial applications, features air-cooled thermal management, an intelligent BMS & monitoring system for peak-shaving/photovoltaic integration. Equipped with fire protection and flexible AC/DC configuration.

generation systems, environmental control systems, and fire control system. Priority is self-generation and self-use, and surplus electricity storage. When the power generated by photovoltaic power generation is used.

Modular all-in-one design supports flexible capacity expansion and off/on-grid switching in seconds. Real-time remote monitoring and diagnostics via cloud platform reduce maintenance costs by 30%. 4-layer safety system (IP54 outdoor-rated cabinet, sand/dust/rain proof) with patented cooling tech.

50kW/100kWh outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C&I energy storage and microgrid applications. Individual pricing for large scale projects and wholesale demands is available. 1+1 redundancy. The battery cabinet has 2*50KWH (51.2kwh) battery outdoor.

The 50kW/115kWh air cooling energy storage system cabinet is an advanced energy storage solution for industrial, adopts an “All-In-One” design concept. Its rapid response and versatile functions make this commercial and industrial energy storage adaptable to various scenarios. Mature equipment.
