

Australian pv distribution m-series manufacturer

Overview

Who makes Australian solar panels?

International solar panel manufacturers like Canadian Solar, Longi Solar, JinkoSolar, and Hanwha Q Cells continue to shape Australia's renewable energy landscape. With their strong global reputations and advanced technologies, they provide Australian homeowners and businesses with reliable, efficient, and future-ready solar solutions.

What are the best solar brands in Australia?

Among the most trusted global names are Canadian Solar, Longi Solar, JinkoSolar, and Hanwha Q Cells, each offering unique strengths that appeal to both residential and commercial users. Canadian Solar has built a strong global reputation and is one of the most widely adopted brands in Australia.

Is Australia's solar industry thriving?

Australia's solar industry is thriving, with a mix of homegrown innovators like Tindo Solar and Australian Solar Manufacturing (ASM) alongside global leaders such as Canadian Solar, Longi, JinkoSolar, and Hanwha Q Cells.

Are ASM solar panels made in Australia?

Consumer Feedback: While specific reviews are limited, the company is recognized for its pioneering role in Australia's domestic panel assembly and reliable workmanship. ASM provides a made-in-Australia assembly service that supports local industry, though they don't manufacture photovoltaic cells themselves.
