Long-Lasting Portable Power Station With a 10-Year Lifespan: With our proprietary long-lasting technology InfiniPower, combined with LiFePO4 batteries, ultra-durable electronic components, a smart temperature control system that monitors temperature up to 100 times per second, and impact-resistant.

This 60,000mAh (192Wh) battery delivers 200W and includes one 140W two-way USB-C fast charging ports. 5 Device Charging Ports: Power all your tech on the go with versatility, no matter the connection type. 39% smaller than similar power stations, attach the strap (sold separately) to easily carry. What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.

What is the best portable power station?

Bluetti AC 200 Max (2,048 Wh) (Update: Out of stock): The AC200 Max once held our title for the best value portable power station, giving you a 2,048 watt-hours of capacity (expandable to 8,192Wh), 2,200-watt output (4,800-watt surge) and 900 watts of solar charging power (1,400-watt solar plus AC). That's nothing to laugh at

in this price range.

What is the fastest charging portable power station?

Dakota Lithium PS 2400 (2,060.8Wh): The Dakota Lithium PS2400 is the fastest-charging portable power station on our list. Now, looking at our test data, that doesn't mean that it took less time to charge than any other unit, but, in using our residential AC charging method, it instead indicates the unit that charges the most watt-hours per minute.

What is a portable power station?

Portable power stations are generally designed to power smaller electronic devices and appliances, from phones and table fans to heavy-duty work lights and CPAP machines. Pay attention to the estimated watt-hours each brand provides in its specs to determine which model makes the most sense for what you'd like to power.
