

# Belize solar electric system assembly

## Overview

---

### Who is Sun's Electric?

Sun's Electric, with over 18 years experience offers design, installation, monitoring, maintenance, and repair of grid tied and off grid solar PV systems by a licensed electrician. In Belize from a concept to a reality, our solar electrical systems are designed and backed by 18 years of industry experience.

### How will Bel's integrated battery system work?

The integrated battery system will help stabilise fluctuations inherent in solar photovoltaic generation, ensuring a steadier power supply. In his remarks, BEL's Chairman E. Andrew Marshalleck said, "Today's signing marks the furthest we've come in realizing our ambitions to harness the power of the sun."

### What is the economy of Belize?

**Background and Context** Belize is a country in Central America, with a population of approximately 430,191 as of 2022. Its economy is highly dependent on tourism, agricultural exports, and energy imports, making it vulnerable to external economic shocks and fluctuations in interna.

### Why did SESB switch to solar power?

"Our main branch recently switched to solar panel power, which we think is a really smart step forward for multiple reasons; the obvious one being that we don't have to pay so much for power, but also for the green effect on the environment. SESB made sure the installation was painless and professional."

## Belize solar electric system assembly
