

Berlin energy storage new energy technology company

Overview

Is scale energy launching Europe's largest decentralized battery storage network?

Berlin-based Scale Energy has secured €2 million in seed funding to develop Europe's largest decentralized battery storage network, according to a company press release. The funding round was led by Climentum Capital, with participation from Vireo Ventures and existing investors Antler and P3A.

How much will battery storage save Germany?

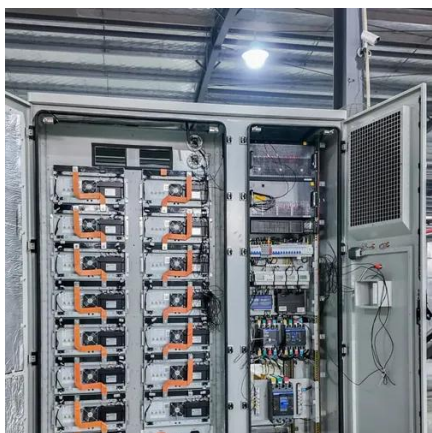

According to Frontier Economics, battery storage could lead to €12 billion in electricity trading cost savings by 2050. Scale Energy's own projections suggest potential annual savings of over €9 billion for German industry.

Could scale energy save German industry €9 billion a year?

Scale Energy's own projections suggest potential annual savings of over €9 billion for German industry. The company has already developed a project pipeline exceeding half a gigawatt across more than 100 industrial sites in Germany and Austria.
