Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future starts here! Flatiron Energy has received approval from ISO New England for a 300-MW/1,200-MWh battery energy storage system in.

The Commonwealth issued a draft request for proposals of 1.5 GW of batteries with storage durations of 4 to 10 hours, primarily funded through the state's Clean Peak Standard. The procurement is part of a broader effort to procure 5 GW of energy storage by 2030. Lightshift Energy storage system in.

The planning board approved the site plan for the Flatiron Energy Energizer Storage battery storage facility proposed for 284 Eastern Ave. at its regular meeting last week. In addition, the board recommended approval of a special permit and variances for the project when it comes before the zoning.
