

Brussels bess telecom energy storage equipment

Overview

What is ENGIE's Vilvoorde Bess project?

ENGIE has started building one of Europe's largest Battery Energy Storage Systems (BESS) at its Vilvoorde place in Belgium. The project, authorised in July 2023 and selected for power remuneration in October 2023, has an inaugurated capacity of 200 MW on a 3.5-hectare site. What are the specifications of ENGIE's Vilvoorde BESS project?

.

Who needs energy storage battery solutions (Bess)?

Businesses, industries or public authorities. Increase the share of wind or solar power in your energy mix with our energy storage battery solutions (BESS).

Is ENGIE generating a Bess project in Belgium?

ENGIE is also generating two other BESS projects in Belgium which already have credentials in place, a 100-MW/400-MWh scheme in Kallo and an 80-MW/320-MWh battery in Drogenbos. The firm targets 10 GW of battery capability globally by 2030. At the end of 2023, it contained 1.3 GW of battery capacity in function and 3.6 GW secured under development.

What does Bess stand for?

French electric utility ENGIE SA has undertaken construction of a 200-MW/800-MWh battery energy storage system (BESS) at its Vilvoorde site on the outskirts of Brussels in Belgium.
