

Cape verde energy charging site

Overview

Cabo Verde already has its first fast charging station for electric vehicles, located in Largo Quebra Canela, in the City of Praia, in which was inaugurated last week by the Minister of Industry, Commerce and Energy.

Cabo Verde already has its first fast charging station for electric vehicles, located in Largo Quebra Canela, in the City of Praia, in which was inaugurated last week by the Minister of Industry, Commerce and Energy.

From this Monday onwards, the island of São Vicente has the first public electrical charging station, which is part of a total of ten already installed through financing from the climate fund. The infrastructure, located on the Porto Grande pier, is the first to operate in Mindelo, within the.

Two public charging stations were inaugurated in the towns of Pedra Badejo and Calheta, in the eastern coast of Santiago Island, on 17 November and 15 December 2023 respectively. These became the third and fourth localities in the country to be part of the growing public charging network for.

The country has gained two more charging stations for electric vehicles, inaugurated in the municipality of Tarrafal, as part of the Project to Promote Electric Mobility. More information here. The country has gained two more charging stations for electric vehicles, inaugurated in the municipality.

Cape Verde has a national target of 100% EV for new sales of light-duty vehicles by 2035. The “Cabo Verde – Electric Vehicles” project, also known as “ProMEC,” focuses on enhancing EV charging infrastructure. The project has €7.2 million in funding through May 2025 and aims to assist the government.
