

China portable power station in mexico

Overview

What is a photovoltaic power station in Mexico?

It is the first photovoltaic general contracting project of POWERCHINA's in Mexico and the largest photovoltaic power station project undertaken by a Chinese company in the Americas. The project is located in central Mexico, with a total installed capacity of 375MWp, and includes photovoltaic farms, 400kV substations, and grid-side reconstruction.

What can powerchina do for Mexico?

After completion, it can meet the electricity demand of more than 90,000 local families in Mexico, providing strong support for Mexico to improve its energy structure and promote the green development of the local economy. The Pachamama photovoltaic project is another innovation and practice of POWERCHINA's in the new energy field in the Americas.
