EPOTR is a company that uses tech to give smart, joined-up, and steady energy storage fixes. Its goal comes from "Energy Power Optimization Technology Research." EPOTR works on new ideas that help energy freedom and better running. Their fixes mix strong power parts with smart energy control.

The Home Energy Storage (HES) market involves systems designed to store excess

energy generated from renewable sources, such as solar panels, for use during peak demand times or grid outages. These systems, typically based on lithium-ion, lead-acid, or flow battery technologies, allow homeowners to.
