The Battery Box is Blue Diamond Machinery's proprietary standalone Battery Energy Storage System (BESS) designed to deliver clean, silent and reliable off-grid power. Built for Australia's harshest conditions and engineered in-house at our Clean Energy Hub, this unit provides plug-and-play power.

The Dingo 50kW Inverter (inc. engineering and network protection) is a highly efficient and versatile power solution for large-scale commercial and industrial applications. This robust inverter is designed to integrate seamlessly with various energy sources, providing up to 50kW of power output.

At SCS Australia, we design and deliver containerised energy storage systems that provide safe, efficient, and scalable power solutions for industries, businesses, and communities. Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable.

The 50KW 114KWH ESS energy storage system cabinet is a high-performance, compact solution for efficient energy storage and management. Equipped with advanced LFP battery technology, this 50kW lithium ion solar battery storage cabinet offers reliable power for various applications, including.

Custom-designed energy storage solutions for commercial and industrial businesses: Our systems are optimized for peak shaving, demand charge reduction, energy arbitrage, and backup power, ensuring your operations run smoothly while reducing energy costs. We also offer seamless integration with.

A commercial 50KW solar system is perfect for large enterprises with substantial energy needs, offering significant reductions in electricity costs and promoting energy independence. A 50KW solar battery allows you to store large amounts of energy generated by your solar panels, ensuring you have.
