

Data center cabinet for bridges 1200mm deep

Overview

What sizes are available for a data center rack?

The sizes are available in 24U, 42u and 48U to get the most height out of your data center space. All of these rack options come standard with 2 vertical cable management bars that are the same height of the rack. The fan tray is powered with a standard 110 power cable that may be plugged into a power strip or PDU.

What size rack is available for a network cabinet?

The 800 mm wide rack is also available for a network cabinet. Our cabinets are the EIA standard 19" server rack. The sizes are available in 24U, 42u and 48U to get the most height out of your data center space. All of these rack options come standard with 2 vertical cable management bars that are the same height of the rack.

What is a Lenovo 42U 1200 mm deep rack?

Lenovo 42U 1200 mm Deep Rack offerings are industry-standard 19-inch server cabinets that are designed for high availability server environments. They are optimized to help maximize floor space, expedite installation, simplify cable management, and increase accessibility for improved serviceability.

What is a 52u server rack enclosure cabinet?

Heavy-duty, locking, 52U Premium Server Rack Enclosure Cabinet that accommodates all standard 19-inch rackmount equipment and ships fully assembled for quick and easy deployment in secure, high-density server and IT networking environments.
