

Energy storage cabinet battery production plant

Overview

The facility is designed to manufacture high-performance cells and packs for utility-scale energy storage, electric mobility and distributed energy applications, positioning the company to tap rising domestic demand across grid and transport electrification.

The facility is designed to manufacture high-performance cells and packs for utility-scale energy storage, electric mobility and distributed energy applications, positioning the company to tap rising domestic demand across grid and transport electrification.

Fundraise by Waaree Energies subsidiary supports the group's ₹10,000-crore capex plan to set up advanced lithium-ion cell and battery pack facility in India. The fundraise forms part of Waaree Group's announced ₹10,000-crore capital expenditure plan for setting up a 20 GWh advanced lithium-ion cell.

Waaree Energies on Monday (January 5, 2026) said that its arm Waaree Energy Storage Solutions raised ₹1,003 crore from a cluster of strategic investors, including family offices, high-net-worth individuals, and institutional backers. The latest fundraise is part of the ₹10,000-crore capital.

The plant, once set up, will produce batteries and battery packs for use in all sizes of grid-scale storage systems and EVs. (AFP) Waaree Energy Storage Services Pvt. Ltd, a subsidiary of clean-energy firm Waaree Energies Ltd, has raised ₹ 1,003 crore as part of the ₹ 10,000-crore capital.

Waaree Energy Storage Solutions Pvt Ltd has secured approximately ₹1,003 crore in funding from family offices, high-net-worth individuals, and institutional investors to establish a lithium-ion cell and battery pack manufacturing facility in India. The fundraise announced today forms part of a.

Waaree Energy Storage Solutions Pvt Ltd (WESSPL) on Monday said it has closed a strategic funding round of about ₹1,003 crore to support the development of a 20 GWh lithium-ion cell and battery-pack manufacturing facility in India. The capital, raised from a mix of family offices, high-net-worth.

LGES unveils expanded facility in Holland, MI, producing LFP batteries for energy

storage systems, marking a significant shift in domestic battery manufacturing.
