Overview

The company recently rented a 3,500 square metre hall in Chelopechene and is investing 4 million euro (\$4.6 million) to equip it for automated production. A second facility of 5,000 square metres, dedicated to inverter manufacturing, is expected to be leased later this year.

The company recently rented a 3,500 square metre hall in Chelopechene and is investing 4 million euro (\$4.6 million) to equip it for automated production. A second facility of 5,000 square metres, dedicated to inverter manufacturing, is expected to be leased later this year.

Production has begun at a battery energy storage system (BESS) factory designated as a project of strategic importance by the European Commission (EC) due to its use of local supply chains. An inauguration event was held earlier this month (10 October) for the factory, at Hemus High-Tech Industrial.

The battery energy storage system (BESS) market in Bulgaria will experience robust growth by 2030 in the co-located/behind-the-meter (BTM) and front-of-the-meter (FTM) segments. Together with the already approved at the end of April 2025, 82 projects for the construction of batteries for the.

Bulgarian firm International Power Supply (IPS) has commenced construction of its second battery energy storage system (BESS) production facility in Sofia, Bulgaria, which will increase its annual BESS production capacity to 4,000 MWh. This initiative aims to meet the rising demand for turnkey.

International Power Supply (IPS), a Bulgarian manufacturer of battery energy storage systems, is about to launch operations at its new facility near Sofia. Its latest model has 8.2 MWh and fits into a standard container. The company plans to double the factory's annual capacity to 3 GWh already by.

Officially recognized by the European Commission as a Strategic Project for the Net-Zero Industry, the new BESS factory of energy technology company IPS features a uniquely European supply chain. Except for the LFP cells, all other critical components are designed and manufactured in-house - from.

The manufacturing facility has launched with 3 GWh annual capacity, set to

expand to 5 GWh by Q2 2026. International Power Supply (IPS) has officially opened its new battery energy storage system (BESS) manufacturing facility near Sofia, Bulgaria – a site recognized by the European Commission as a.
