

Fixed Type Intelligent Photovoltaic Energy Storage Cabinet for Oil Platforms

Overview

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on-grid and off-grid configurations for reliable energy.

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on-grid and off-grid configurations for reliable energy.

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on-grid and off-grid configurations for reliable energy storage solutions. Supports.

EK photovoltaic micro-station energy cabinet is a highly integrated outdoor energy storage device. Its core function is to convert renewable energy such as solar energy and wind energy into stable electricity, and realize energy storage, distribution and monitoring through intelligent energy.

Multi-dimensional use, stronger compatibility, meeting multi-dimensional production and life applications High integration, modular design, and single/multi-cabinet expansion Zero capacity loss, 10 times faster multi-cabinet response, and innovative group control technology Meet various industrial.

In a world continuously jolted by unpredictable energy prices, aging grid infrastructure, and an increasingly urgent global pivot towards sustainable practices, the spotlight is fiercely and deservedly turning towards innovative power solutions. The traditional, centralized paradigms of energy.

Standardized Structure Design: Includes energy storage batteries, power conversion systems (PCS), photovoltaic modules, and charging modules in a compact and highly efficient cabinet. Flexible Expansion: Designed to support off-grid switching and photovoltaic energy charging, making it ideal for.

Scalable from 215kWh to multi-MWh configurations for flexible industrial needs.

IP54-rated outdoor cabinet withstands extreme temperatures, dust, and moisture. LFP batteries with 6,000+ cycles, 95% efficiency, and 10-year lifespan. Real-time load optimization, peak shaving, and grid interaction via.
