

Germany hamburg sulfuric acid outdoor solar power hub

BASIC APPLICATION

Storage systems have been proven to be "extremely lucrative" for commercial and industrial (C&I) fields.

Overview

What is Hamburg Green Hydrogen hub?

Hamburg Green Hydrogen Hub represents the consortium of Luxcara and Hamburger Energiewerken. This consortium will build and operate a 100 MW electrolyser and trailer loading bays at the site. The company is also responsible for procuring electricity to meet internal demand and marketing the hydrogen.”
EEHH: When will HGHH be fully operational?

Does Hamburg Moorburg have green hydrogen?

Hamburg Moorburg has something. Something that other sites don't have. Where coal delivered energy yesterday, in the near future, green hydrogen will be produced from renewable energy sources and therefore energy for mobility, heat, process gas or natural gas replacement.

What is energy hub Moorburg?

Energie Hub Moorburg can be regarded as an industrial park operator that provides the space, infrastructure and services for the projects. Hamburg Green Hydrogen Hub represents the consortium of Luxcara and Hamburger Energiewerken. This consortium will build and operate a 100 MW electrolyser and trailer loading bays at the site.

How does hPa support alternative fuel infrastructure in Hamburg?

Together with private stakeholders, HPA takes pro-actively responsibility and supports the establishment of alternative fuel infrastructure in the port of Hamburg. Tanker Port areas are already bunker-ready in the port of Hamburg for any alternative fuel. Biofuels are locally available and being bunkered regularly.
