Overview

The report discusses three trends in grid modernization actions taken in Q2 2025: (1) states mandating procurement of energy storage, (2) lawmakers implementing rules governing microgrid deployment, and (3) states integrating technology requirements into distribution .

The report discusses three trends in grid modernization actions taken in Q2 2025: (1) states mandating procurement of energy storage, (2) lawmakers implementing rules governing microgrid deployment, and (3) states integrating technology requirements into distribution .

The Federal Energy Management Program's (FEMP) Distributed Energy and Energy Procurement initiative helps federal agencies accomplish their missions through investment in lasting and reliable energy-generation projects and purchases. For more than 30 years, FEMP has helped federal agencies with.

Raleigh, NC – (July 23, 2025) The NC Clean Energy Technology Center (NCCETC) released its Q2 2025 edition of The 50 States of Grid Modernization. The quarterly series provides insights on state regulatory and legislative discussions and actions on grid modernization, utility business model and rate.

In response to increased State goals and targets to reduce greenhouse gas (GHG) emissions, meet air quality standards, and achieve a carbon free grid, the California Public Utilities Commission (CPUC), with authorization from the California Legislature, continues to evaluate options to achieve.

velopment of an initial forward storage procurement process for the procurement of energy storage resources. This report is to address the fourteen questions outlined in Section 16-135(g) of the Public Utilities Act (“Key Questions”) and to recommend the most effective procurement process.

Under the New York State Public Service Commission’s Energy Storage Order, the six investor-owned utilities (IOU) in New York must issue an initial request for proposals (RFP) in 2019, and subsequent RFPs annually as necessary, to competitively procure bulk energy storage dispatch rights for up to.

Determine the types of storage to be considered. Grid carbon content varies

throughout the day. Grid carbon content varies by region. Make and store chilled water (or ice) in tanks when energy has low carbon content. Use stored chilled water to cool the building when energy has high carbon content. Does grid energy storage have a supply chain resilience?

This report provides an overview of the supply chain resilience associated with several grid energy storage technologies. It provides a map of each technology's supply chain, from the extraction of raw materials to the production of batteries or other storage systems, and discussion of each supply chain step.

Which technologies are commercially available for grid storage?

Several technologies are commercially available or will likely be commercially available for grid storage in the near-term. The technologies evaluated provide storage durations that range from hours to days and response times of milliseconds to minutes. Four families of battery technologies and three LDES technologies are evaluated.

Can federal agencies implement microgrids at their sites?

Report explores procurement options and agreements that may be useful to federal agencies interested in implementing microgrids at their sites. The free, online REopt platform is designed to help building owners, developers, utilities, researchers, and everyday citizens understand their optimal energy solution.

Are US suppliers competitive in the lead-acid Grid ESS market?

Most of the lead used in the United States is from domestic sources. The weakness of the supply chain is also apparent in that the demand for lead-acid grid ESS is declining in the United States and abroad. Furthermore, it is not clear if U.S. suppliers are competitive in this market as they do not offer full grid ESS packages.

Government Procurement of Grid-Connected Distribution and Energy

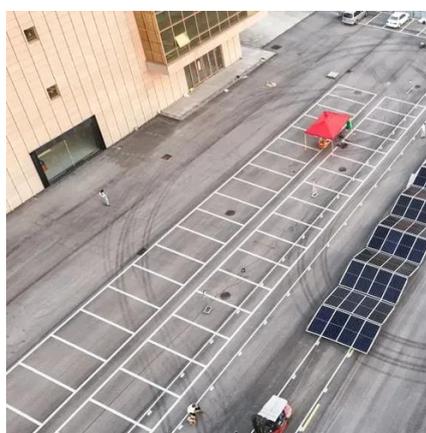

[83E Distribution-Connected Energy Storage System ...](#)

In addition to transmission connected resources, the RFP Drafting Parties intend to reserve a portion of Round 2 procurement capacity for distribution-connected energy storage ...

[Zimbabwe Electricity Transmission & Distribution Company](#)

Zimbabwe Electricity Transmission & Distribution Company STANDARD BIDDING DOCUMENT For The Design, Engineering, Supply, Packing and Forwarding, Transportation, Unloading, ...

[REQUEST FOR PROPOSALS FOR LONG-TERM...](#)

For the avoidance of doubt, GIS Certificate(s) shall include without limitation all Clean Peak Energy Certificates associated with the Energy from the Energy Storage System ...

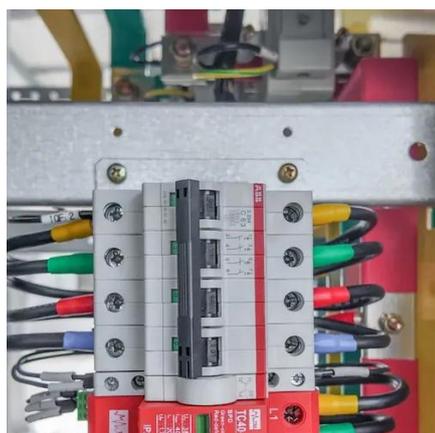

[Integrated Energy Storage Cabinet](#)

This energy storage cabinet supports both on-grid and off-grid configurations, with harmonic distortion

Distributed Energy and Energy Procurement

The Federal Energy Management Program's (FEMP) Distributed Energy and Energy Procurement initiative helps federal agencies accomplish their missions through investment in lasting and ...

The 50 States of Grid Modernization Q2 2025: States Pursue ...

The report discusses three trends in grid modernization actions taken in Q2 2025: (1) states mandating procurement of energy storage, (2) lawmakers implementing rules ...

373kWh Liquid Cooled Energy Storage System

Outdoor cabinets are manufactured to be a install ready and cost effective part of the total on-grid, hybrid, off-grid commercial/industrial or utility scale battery energy storage system.

Utility Procurement

Non-wire solutions (NWS), also known as non-wires alternatives, allow utilities to defer or avoid conventional infrastructure investments to procure distributed energy resources that lower ...

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg 197mm / 7.7in

Product voltage: 3.2V

internal resistance: within 0.5

P-1238 Construction of Grid Stability and Resiliency 10 MW

The BESSs will be connected to the solar PV systems for clean energy charging as well as to the installation's electric distribution system for utility power or on-site cogeneration ...

Distributed Energy Resources for Resilience

REopt evaluates the economic viability of distributed PV, wind, battery storage, CHP, and thermal energy storage at a site, identifies system sizes and battery dispatch strategies to minimize ...

Distributed Energy and Energy Procurement

The Federal Energy Management Program's (FEMP) Distributed Energy and Energy Procurement initiative helps federal agencies accomplish their missions through investment in lasting and ...

static-cdn.publive.online

No. No. 48-19/2/2024-NRE: The Guidelines for Tariff Based Competitive Bidding Process for Procurement of Firm and Dispatchable Power from Grid Connected Renewable Energy Power ...

[What is an energy storage grid cabinet? . NenPower](#)

Energy storage grid cabinets represent a transformative development in the management and distribution of electrical energy ...

PUSUNG-R (Fit for 19 inch cabinet)

[HLBWG Photovoltaic Grid-Connected Cabinet](#)

Photovoltaic grid-connected cabinet is a distribution equipment connecting photovoltaic power station and power grid, and is the total outgoing of ...

[All-in-One Energy Storage Cabinet & BESS Cabinets , Modular, ...](#)

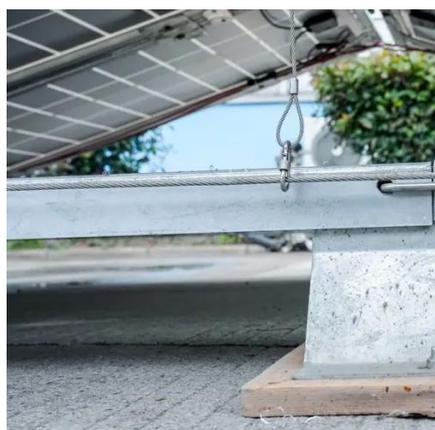

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal ...

Energy Storage

The following provides information on California energy storage legislation, the CPUC energy storage program and projects evaluation, CPUC energy storage proceedings, ...

[83E Distribution-Connected Energy Storage System ...](#)

Please describe the unique services and benefits that distribution-connected energy storage systems can provide over transmission-connected energy storage systems.

[Energy Storage in Federal Buildings Interim report \(outline\)](#)

Determine the types of storage to be considered. Grid carbon content varies throughout the day. Grid carbon content varies by region. Make and store chilled water (or ice) in tanks when ...

[Liquid-cooled Energy Storage Cabinet-Commercial & Industrial ...](#)

- o Supports grid-connected and off-grid switching.
- o Supports black start and backup power for critical loads.
- o Supports parallel expansion for dynamic capacity increase.
- o C5-level corrosion ...

[Lithium Battery Storage Cabinets Market Size, Drivers, ...](#)

The pricing landscape for lithium battery storage cabinets is increasingly shaped by the rapid adoption of automation and robotics within industrial and commercial sectors.

Grid Energy Storage

The DOE energy supply chain strategy report summarizes the key elements of the energy supply chain as well as the strategies the U.S. Government is starting to employ to address them. ...

[Energy storage grid-connected cabinet](#)

The photovoltaic low-voltage grid connected cabinet is mainly used for distributed photovoltaic power generation projects in AC 400V low-voltage systems.

[Energy Storage Procurement Report to the Governor, the ...](#)

The energy storage systems contracted through the initial competitive procurement should be incentivized to maximize value to the grid for the benefit of Illinois ratepayers.

[The 50 States of Grid Modernization Q2 2025: ...](#)

The report discusses three trends in grid modernization actions taken in Q2 2025: (1) states mandating procurement of energy storage, ...

Energy Storage

Energy Storage Legislation
Energy Storage Procurement to Date
Energy Storage Procurement Evaluation
Scaling Up and Crossing Bounds
Energy Storage Proceedings
Other Energy Storage Related Rulemakings
Additional Resources
To date the CPUC has approved procurement of more than 1,533.52 MW of new storage capacity to be built in the State. Of this total 506 MW are operational. The AB 2514 mandate is procured in three distinct grid domain targets, with some flexibility between the grid domain targets of customer sited, distribution-connected, and transmission connected.
