

# Gzdw battery cabinet model

## Overview

---

Can gzdw series be custom?

Can be custom. Description: GZDW series is suitable for substations, power plants, industrial and mining enterprises, electrified railways and high-rise buildings of different voltage levels. It can be used as operating power and control power for high-voltage switches, relay protection and automatic devices.

What is gzdw series high frequency switching dc power supply panel?

Company Info. Basic Info. Model NO. GZDW series high frequency switching DC power supply panel is a complete set of DC power supply devices designed and produced by our company according to GB/T 19826-2005 and DL/T 459-2002 standards by combining years of technical experience and production system management.

What is gzdw series?

Main function: bus insulation, data collect and display and charge management. Cabinet color: Standard color is RAL7035. Can be custom. Description: GZDW series is suitable for substations, power plants, industrial and mining enterprises, electrified railways and high-rise buildings of different voltage levels.
