A consortium of five international and Vietnamese companies has proposed investing in an energy storage battery plant in the Ho Chi Minh City-based Saigon High-Tech Park (SHTP), with total investment capital of \$850 million. The DCH consortium includes Dai Dung Corporation, Construction Corporation.

Vietnam's energy storage sector is booming faster than a motorbike rush hour in Hanoi. With large-scale projects dominating 80% of the market in 2024 [1], distributors are scrambling to meet demand. But what's driving this growth?

Let's peel back the layers of this durian - spiky on the outside.

The Vietnam energy storage market is experiencing rapid growth driven by increasing renewable energy deployment and government support for energy storage projects. The country's energy transition towards cleaner sources has created a need for energy storage solutions to manage the intermittent.
