

Italian industrial cabinets for battery swapping stations corrosion resistant type

Overview

Power and battery cabinets are engineered to withstand harsh environments, featuring advanced environmental monitoring capabilities. Constructed from 1.5 mm thick SGCC steel, its IP55-rated enclosure includes a secure three-point anti-theft locking system for enhanced protection.

Indoor and outdoor rack and battery cabinets Power and battery cabinets are engineered to withstand harsh environments, featuring advanced environmental monitoring capabilities. Constructed from 1.5 mm thick SGCC steel, its IP55-rated enclosure includes a secure three-point anti-theft locking.

Racks are steel structures for storing batteries in power plants and substations. It is necessary to calculate the correct weight of this structure according to the battery specifications. Using epoxy paint resistant to corrosion or acid and preparing rack parts for proper painting is the most.

We are specialized in manufacturing stainless steel electrical cabinets for industrial automation. Zanardo electrical cabinets can be modular, suitable for battery combinations, with the option of adding a cable module to be combined with DRC, EC or KA cabinets and the mono-block structure.

This product targets the three core pain points of low charging efficiency, frequent safety hazards, and insufficient energy replenishment facilities in the electric vehicle industry. Innovate the modular battery swap mode of "vehicle and electricity separation". Relying on intelligent battery.

Our battery cabinets are sophisticated and offer modular solutions that can withstand even temperatures and earthquakes when it matters. VENTILATION: Our cabinets are specially designed for the use of stationary batteries. One important factor here is ventilation, both for cooling and for the.

Since 2016, TYCORUN has been deeply involved in the battery swap cabinet field

to create efficient and safe battery swap solutions tailored for enterprise deployment. With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium.
