

Japan s 400V Power Storage Cabinet Tender

Overview

How much battery storage is in Japan's LDA?

Battery storage accounted for 22% of the awarded capacity in the latest round of Japan's LTDA, up by around 25% on the first auction. Three big nuclear plants claimed around half the awarded capacity. In total, 1.4 GW of BESS was allocated, with 27 projects awarded contracts as part of the capacity market.

Will Japan invest in battery storage?

Japan's first auction for long-term zero emissions power capacity has attracted strong bidding interest with a plan to install battery storage, as investment in the power storage system is gaining momentum in line with expanded use of fluctuating renewable energy sources.

What are the benefits of bidding on Japan tenders?

Bidding for tenders in Japan is extremely lucrative for companies of all sizes. Japan tendering authorities release contracts for most of the products and services procured by them benefitting small, medium and large enterprises. A few of the benefits of bidding on Japan tenders are -
