

# Juba energy storage equipment

## Overview

---

The Juba Solar Power Station is a proposed 20 MW (27,000 hp) solar power plant in South Sudan. The solar farm is under development by a consortium comprising Elsewedy Electric Company of Egypt, Asunim Solar from the United Arab Emirates (UAE) and I-kWh Company, an energy consultancy firm also based in the UAE. The solar farm will have an attached battery energy storage. OwnerJuba Solar Energy CompanyCountryLocation, StatusProposedLocationThe power station would be located on a 25 hectares (62 acres) piece of real estate, approximately 20 kilometres (12 mi) from , the capital and largest city of South Sudan. .

In March 2020, South Sudan's installed generation capacity was reported as approximately 130 MW. Most of the electricity in the country is concentrated in Juba the capital and in the regional centers of.

The power station is reported to cost an estimated US\$45 million to construct. The project has received a loan from the .
