

# Lead-acid battery sign cabinet base station

## Overview

---

Do you need a battery storage sign?

labeled and protected. Battery Storage Signs are essential for facilities that keep large amounts of batteries stored on site. Properly marking battery storage areas not only provides helpful guidance for workers, but can also warn them of precautions they should take before entering the storage area.

Are battery storage signs dangerous?

Since most batteries such as Lead-acid batteries and lithium-ion batteries are highly dangerous and flammable, battery storage areas could become a potential site for a wide-scale accident. Browse our wide selection of Battery Storage Signs below. Need a specialized sign for your facility?

No problem.

Why do you need battery safety signs?

Equip your workplace with battery safety signs that ensure you're always on the right side of safety regulations. By staying aware of the hazards and using the right signage, you can keep your workplace safe and efficient. Browse our selection of battery signs today and make sure you're covered.

What happens if you don't have safety signs in a battery room?

The impact of improper, insufficient or lack of safety signs could result in: physical harm to employees, fines, or potential litigation. OSHA has several different requirements for battery room signage as listed on this page.
