One of our recent projects with a leading U.S. solar engineering company perfectly illustrates how E-abel helps partners expand their offerings through tailor-made solar battery storage cabinets, designed to house both inverters and battery systems. Our client, a reputable solar engineering service.

Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure. This place is called a "battery enclosure", or what is.
