Manufacturer of dustproof power cabinets for tunnels

Overview

At Langsung Electric, we specialize in designing and manufacturing high-quality electrical cabinets that cater to diverse industry needs. Our cabinets are engineered to meet international safety standards, ensuring reliable performance even in the most demanding environments.

At Langsung Electric, we specialize in designing and manufacturing high-quality electrical cabinets that cater to diverse industry needs. Our cabinets are engineered to meet international safety standards, ensuring reliable performance even in the most demanding environments.

Fire rated Junction boxes, enclosures for tunnel´s, road sunnel and mayor fire risk places. Systems specially designed; robust, watertight, and safe for electrical installations in tunnels, subways. Fire Junction boxes Certified 2 Hours PH120 In Delvalle we have an SOS cabinets for tunnels.

Langsung Electric stands as a global leader in the manufacturing of high-quality electrical equipment. With over two decades of experience, we specialize in designing, producing, and supplying innovative solutions tailored to various industries worldwide. Why Choose Langsung Electric for Your.

ETA's weatherproof and industrial-grade enclosures support DOT traffic control, railway signal cabinets, tunnel automation, and smart city power distribution. Built for Demanding Automation Applications Industrial automation requires enclosures that protect critical electrical and electronic.

We produce waterproof boxes made of plastic, stainless steel, metal plates, and aluminum NEMA shells, and provide customized and breakthrough solutions for various scenarios. Waterproof products such as IP63, IP64, IP65, IP66, IP67, and IP68 ensure reliable and stable performance in various.

Our Enclosures are designed to protect equipment in a wide range of industrial environments. Built from durable materials such as stainless steel and mild steel, our cabinets provide reliable performance against dust, water, and harsh operating conditions. All enclosures are built with advanced CNC.

IP (Ingress Protection) ratings are defined by the international standard IEC 60529

to specify how well an enclosure protects against the intrusion of solid particles (like dust) and liquids (like water). Each rating consists of two digits: We manufacture and provide certified IP65-rated. What are Delvalle stainless steel cabinets used for?

Delvalle stainless steel cabinets specially designed electrical Junction boxes and enclosures; robust, watertight, and safe for electrical installations in tunnels, subways. Junction boxes, enclosures for tunnel´s, road sunnel and mayor fire risk places.

Who designed EMC cabinets for the Marmara Sea tunnel?

Delvalle and Siemens designed EMC electrical cabinets for the placement of electronics and signaling of the Marmara sea tunnel. Do you have a special project?

 Delvalle stainless steel cabinets are ideal for installation in tunnels.

What is a powder coated steel IP65 cabinet?

The Powder-Coated Steel IP65 Cabinet is a rugged and economical solution for housing electrical components in both indoor and outdoor environments.
