

Market Price of Off-Network Server Racks for Power Distribution Rooms

Overview

How much is data center rack power distribution unit market worth?

Data Center Rack Power Distribution Unit Market was valued at USD 2 billion in 2023 and is estimated to register a CAGR of over 8% between 2024 & 2032, driven by the prominence of product showcases at premier events hosted by industry leaders.

Which region dominates the data center rack power distribution unit market?

North America dominated the global data center rack power distribution unit market with a share of over 36% in 2023. With a robust digital infrastructure and a large concentration of data centers, the region prioritizes reliable power distribution solutions.

What is the data center rack PDU market size in 2024?

What years does this Data Center Rack PDU Market cover, and what was the market size in 2024?

The Data Center Rack Power Distribution Unit (PDU) Market is expected to reach USD 2.78 billion in 2025 and grow at a CAGR of 8.01% to reach USD 4.08 billion by 2030.

What is data center rack power distribution unit (PDU)?

Data center rack power distribution unit (PDU) provide optimum power distribution and complete power protection for devices in the center. Power distribution units can be installed horizontally or vertically within a rack. The market is driven by increasing number of data centers in developing countries, such as China.

Market Price of Off-Network Server Racks for Power Distribution Room
