

# Modular Battery Cabinet for Oilfield Use 10MWh

## Overview

---

What is a medium series battery energy storage system?

The medium series battery energy storage system is designed with versatility and scalability in mind. Featuring MPPT technology and leading-edge conversion equipment, these BESS systems are built to stand out thanks to their longevity, reliability, and customisability.

What is a modular series energy storage system?

The MODULARPLUS version is an Energy Storage System (ESS) consisting of a cabinet with a standard configuration of 225 kWh energy storage plus a standard inverter with a capacity of 110 kW. The Modular series is a modular and expandable energy storage system up to, for example, 10MWh.

What is a srb10 Battery Cabinet?

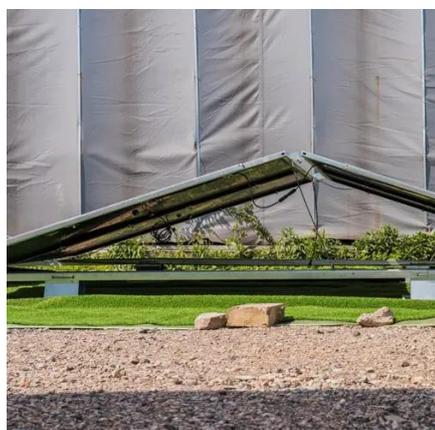

The SRB10 Battery Cabinet is an outdoor-rated enclosure that can hold up to 10x SR5K-UL battery modules for a total energy capacity of 50 kWh. The cabinet is outdoor-rated with automatic, temperatu. Explore StackRack's modular battery systems for residential, commercial, and utility-scale projects.

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.
