

Modular battery cabinet with 15kW used in British hotels

Overview

What types of battery storage cabinets do you offer?

We provide modular battery storage cabinets and 20ft, 40ft energy storage containers that can be connected to inverters ranging from 100kW, 500kW 1MW, 2MW, 3MW & 4MW from manufacturers such as Power Electronics & SMA. We can offer both air cooled and liquid cooled battery modules to meet various climate conditions across the globe.

What is a global power supply battery cabinet?

Global Power Supply provides a full range of battery cabinets engineered to extend UPS runtime, protect sensitive loads, and maintain continuity in any environment. A UPS system provides immediate backup power during an outage. Paired with compatible UPS battery cabinets, your facility gains extended power capacity and greater resilience.

What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

Who makes battery cabinets?

Global Power Supply offers battery cabinets from industry-leading manufacturers such as Toshiba and Narada, available in multiple configurations to match your specific operational needs. Because every facility's power requirements are unique, we can help tailor the number of cabinets, capacity, and layout to meet your space and runtime objectives.
