

Nassau energy storage project construction

Overview

But this 150MW project is basically building a giant energy savings account for New York. Located in West Babylon, it's like installing a super-sized smartphone charger for the entire grid – except instead of cat videos, it stores sunshine and wind power for rainy days.

But this 150MW project is basically building a giant energy savings account for New York. Located in West Babylon, it's like installing a super-sized smartphone charger for the entire grid – except instead of cat videos, it stores sunshine and wind power for rainy days.

Major milestone of fourth Asset Vault project now under construction, 'safe harbored' and FEOC compliant as part of broader investment program executed in Q4 2025 for multiple projects Previously acquired from Royal Dutch Shell's subsidiary Savion, SOSA Energy Center estimates commercial operation.

Energy Vault has commenced construction of the SOSA Energy Center, a 150MW/300 megawatt-hour battery energy storage project in Madison County, Texas, US. The battery energy storage system (BESS), developed for the ERCOT North market, is expected to enter commercial operation by the second quarter.

WESTLAKE VILLAGE, Calif. - Energy Vault Holdings, Inc. (NYSE:NRGV) has started construction of the SOSA Energy Center, a 150 MW/300 MWh battery energy storage system in Madison County, Texas, according to a company press release. The company's stock, currently trading at \$4.89, has seen remarkable.

But this 150MW project is basically building a giant energy savings account for New York. Located in West Babylon, it's like installing a super-sized smartphone charger for the entire grid – except instead of cat videos, it stores sunshine and wind power for rainy days. Who Cares About Big Battery.

As one of North America's most ambitious battery energy storage systems (BESS), this \$220 million marvel isn't just storing electrons—it's rewriting the rules of grid resilience. Let's unpack why tech giants and local communities alike are buzzing about this game-changer. Who Cares About Giant.

As utilities scramble to meet New York's 2030 clean energy targets, the Nassau

shared energy storage project bidding process has emerged as a make-or-break moment for scalable grid solutions. With capacity claims ranging from 200MWh to 500MWh depending on configuration, this isn't your average.
