

# New Zealand Lithium Battery Cabinet for Highway Use Grid-connected Type

## Overview

---

Which energy company is building New Zealand's first grid-connected battery energy storage system?

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakākā on North Island. On January 10, 2023, Saft, a subsidiary of TotalEnergies, has been awarded a major contract by Meridian Energy to construct New Zealand's first large-scale grid-connected BESS.

Why should New Zealand invest in grid-scale batteries?

Additionally, these batteries, alongside more renewable generation, will help offset the retirement of thermal generation and support New Zealand's transition to a low-emissions economy. The first grid-scale battery was commissioned in 2023 by Hamilton lines company WEL Networks.

Will a 100 mw storage system improve New Zealand's national grid?

The 100 MW storage system, to be operated by Meridian Energy, is designed to improve the stability of New Zealand's national grid as intermittent renewable power generation increases in the country.

What is a SAFT lithium-ion battery storage system?

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakākā on North Island. Saft lithium-ion technology will provide 100 MW power and 200 MWh storage capacity to support grid stability as intermittent wind and solar power increases in New Zealand.

## New Zealand Lithium Battery Cabinet for Highway Use Grid-connected

### [Safe Storage for Lithium-ion Batteries](#)

Store lithium-ion batteries safely with our fire-resistant, AS/NZS 5139-compliant cabinets - perfect for NZ worksites, warehouses & ...

### [Lithium-ion Battery Technologies for Grid-scale Renewable ...](#)

It also briefly covers alternative grid-scale battery technologies, including flow batteries, zinc-based batteries, sodium-ion batteries, and solid-state batteries. Furthermore, ...
