Waaree Energy Storage Solutions Pvt Ltd (WESSPL) on Monday said it has closed a strategic funding round of about ₹1,003 crore to support the development of a 20 GWh lithium-ion cell and battery-pack manufacturing facility in India. The capital, raised from a mix of family offices, high-net-worth.

Waaree Energy Storage Solutions Pvt Ltd (WESSPL), a subsidiary of Waaree Energies Ltd and a key player in India's rapidly expanding energy storage sector, has successfully completed a major funding round amounting to approximately ₹1,003 crore. The capital was raised from a consortium of strategic.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC-compliant energy storage systems designed for renewable integration, peak shaving, and backup power.

The fundraiser is part of a broader ₹10,000 crore capital expenditure plan by the Waaree Group to establish large-scale energy storage manufacturing in India. Waaree Energy Storage Solutions Pvt Ltd has raised about ₹1,003 crore (\$120 million) from a group of investors to fund the development of a.

Battery energy storage has become a core component of utility planning, grid reliability, and renewable energy integration. Following a record year in 2024, when more than 10 gigawatts of utility-scale battery storage were installed nationwide, deployment accelerated even further in 2025. By.
