

North macedonia 2025 energy storage

Overview

Battery licensing begins as 60 MW milestone nears, and 4 GW of storage proposals await review. North Macedonia has issued its first two licenses for battery energy storage system (BESS) projects, with a combined capacity of 2.6 MW.

Battery licensing begins as 60 MW milestone nears, and 4 GW of storage proposals await review. North Macedonia has issued its first two licenses for battery energy storage system (BESS) projects, with a combined capacity of 2.6 MW.

Battery licensing begins as 60 MW milestone nears, and 4 GW of storage proposals await review. North Macedonia has issued its first two licenses for battery energy storage system (BESS) projects, with a combined capacity of 2.6 MW. These licenses were issued by the Energy Regulatory Commission.

With 900 MW of installed capacity, North Macedonia's solar sector is scaling rapidly, while battery storage is gaining momentum. Find out more in our daily focus, 15-18 September. North Macedonia offers strong growth potential for renewable energy. Favourable geography and climate support both.

Starting from 29 May 2025 a new Energy Law starts to apply in North Macedonia. This new regulatory framework serves for transposition of the Clean Energy Package into the national legislation and introducing major novelties, such as new development process for energy generation and storage.

The Government of North Macedonia has adopted the Annual Plan for the Construction of Energy Facilities for Electrical and Heat Energy Production and Electrical Energy Storage for 2025 (the "Annual Plan"), introducing for the first time a systematic and comprehensive approach to planning the.

North Macedonia is undergoing a decisive energy transition, rapidly transforming its energy mix through photovoltaics (PV), which is becoming the fastest-growing renewable technology. This unprecedented expansion, driven by the European Union's Clean Energy Package, has led the country to achieve.

On 14 May 2025, the Parliament of the Republic of North Macedonia adopted the new Energy Law, modelled on European Union (EU) acquis and aligning the country's energy policies with the EU's Clean Energy Package. It is expected that

the novelties which the new Energy Law provides will significantly.

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
