

Ottawa energy storage power station transaction

Overview

Rural councillors rejected a second attempt by Gatineau-based company Evolugen to win support for a large battery facility in rural west Ottawa, after dozens of people weighed in over the course of a nearly 10-hour meeting Thursday.

Rural councillors rejected a second attempt by Gatineau-based company Evolugen to win support for a large battery facility in rural west Ottawa, after dozens of people weighed in over the course of a nearly 10-hour meeting Thursday.

Ottawa BESS 2 is a proposed up to 75 Mega-Watt (“MW”) lithium-ion Battery Energy Storage System (“BESS”) that will be located at 2393 8th Line Road, Ottawa, ON, K0A 2P0. The Project will be submitted to the Independent Electricity System Operator’s (“IESO”) Request for Proposals under the Long-Term.

In 2025, the City of Ottawa established official plan and zoning provisions for battery energy storage uses in accordance with new Official Plan policy. BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, which can then discharge.

Rural councillors rejected a second attempt by Gatineau-based company Evolugen to win support for a large battery facility in rural west Ottawa, after dozens of people weighed in over the course of a nearly 10-hour meeting Thursday. The audio version of this article is generated by AI-based.

This week is pivotal for the BESS project, as the city’s Agriculture and Rural Affairs Committee (ARAc) is set to make a decision on June 5 regarding a recommendation for a Municipal Support Resolution for the 250-megawatt project based on Marchurst Road. The project has sparked considerable debate.

Brookfield Renewable Power Inc. (“BRPI”) or an affiliate, will be advancing the South March BESS (Battery Energy Storage System) (“Project”) through Evolugen, Brookfield’s Canadian operating business. The Project directly responds to the Independent Electricity System Operator’s (IESO) call for.

Ottawa Fire Services (OFS) develops emergency response plans based upon the occupancy and hazards for the location and then develops standardized response codes that meet these needs. OFS will ensure that fire protection systems are

sufficient and meet applicable standards as well as determine the. Does Ottawa have a battery energy storage plan?

In 2025, the City of Ottawa established official plan and zoning provisions for battery energy storage uses in accordance with new Official Plan policy. BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, which can then discharge energy in periods of high demand.

Why has Ottawa thrown its support behind a battery facility?

City council has thrown its support behind a contentious battery facility in rural west Ottawa, after rural councillors rebuffed the same appeal last week. At a Wednesday meeting, councillors voted overwhelmingly to support the proposal from Evolgen, a renewable energy company based in Gatineau, Que.

Does Ottawa fire services provide water storage?

Water storage may be available on-site, and Ottawa Fire Services is Superior Tanker Shuttle certified to maintain continuous water delivery as needed. Will Ottawa Fire Services inspect and certify that BESS projects are safe before they are operational?

OFS plays a role in ensuring the safety of BESS projects.

Will evolgen win support for a battery facility in Ottawa?

The issue goes to city council June 11. Rural councillors rejected a second attempt by Gatineau-based company Evolgen to win support for a large battery facility in rural west Ottawa, after dozens of people weighed in over the course of a nearly 10-hour meeting Thursday.

50KW modular power converter

Flexible Configuration

- Modular Design, Expanding as Required
- Small/light, Well-Mounted
- Available in Racked for Expansion

Powerful Function

- Support PV/ESS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

Reliable Protection

- Outdoor IP65 Design
- Sufficient Protection Functions Equipped
