Callao Port in Peru inaugurates Latin America's first electric truck charging station, targeting carbon neutrality by 2030. This move by DP World, in partnership with Enel X Way, marks a significant leap in sustainable port operations across the region. Callao, Peru's bustling port city, has taken.

During the promotional period, electric vehicles that arrive in Ica will be recharged for free. Petroperú and Enel W Way are committed to the need for new energy sources that are increasingly more efficient and have less environmental impact, which is why they installed their third fast charging.

Enel X Way joins DP World, concessionaire of the South Pier of the Port of Callao, Peru, to inaugurate an electric charging station that works with renewable energy, becoming the first port terminal in Latin America to have this type of infrastructure. The initiative will allow 20 100% electric.

On April 4, 2024, we unveiled the first charging station for electric trucks at our terminal on the South Dock of the Port of Callao in Peru. This initiative makes Callao the first port terminal in Latin America to feature this type of infrastructure, promoting decarbonization, environmental.

DP World's terminal at the Port of Callao, Peru has begun using the first electric charging station for trucks in Latin America. The new infrastructure is part of the port operator's decarbonization plans at Callao, with an aim of reducing over 2000 tons of carbon dioxide emissions per year. The.

Yesterday, the first electric charging station with renewable energy was

inaugurated at the Muelle Sur Port Terminal, making DP World Callao the first port terminal in Latin America to have a charging station for its electric trucks. In addition, the acquisition of its recent fleet of 20 fully.
