How much does a server rack cost?

The cost of server racks varies greatly based on features, size, and brand. You should budget between \$200 and \$2,000 on average for each rack. Today's world depends largely on server uptime and dependable networking. Both require quality server racks, which effectively secure the wires and equipment that comprise an IT installation's foundation.

Can I rent a rack in a data center?

Physical protection of racks. In the data center you can rent both: open and individually locked racks. You can get to the server hardware only if the lessee (owner of the hardware) issues a temporary code for short-term access.
