Q: How much power solar energy systems can you provide?

A: Home solar energy systems 5-30KW, and we also provide higher wattage 30KW-1MW+ commercial and industrial solar power systems. Q: Can you offer On Grid and Off Grid solar power systems?

A: Yes, we produce OnGrid solar power systems, Off Grid.

600KW 600KVA Off Grid Solar Power System With Battery Storage This Solar system not only have solar power system function, but also have Utility complementary function. When main power off , the solar system can switch

automatically to take use off solar power from battery to run load, When solar.

Most industrial off-grid solar power sytems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure. This place is called a "battery enclosure", or what is.
