

Resort uses 10MW off-grid solar power units from Suriname

Overview

The project features an off-grid microgrid system that integrates photovoltaic panels, energy storage, and diesel generation. Five project groups, covering a total of 34 forest villages, are being constructed by POWERCHINA.

The project features an off-grid microgrid system that integrates photovoltaic panels, energy storage, and diesel generation. Five project groups, covering a total of 34 forest villages, are being constructed by POWERCHINA.

Twelve remote villages in the Suriname forest now enjoy continuous power thanks to a new microgrid initiative. Once complete, the Suriname Village PV Microgrid Project will consist of five microgrids with a total generation capacity of 5,314 MWh, serving 34 villages. In 2019, POWERCHINA initiated.

Solar panels are the cornerstone of any solar microgrid, converting sunlight directly into electricity. Modern solar panels are highly efficient and durable, capable of withstanding harsh environmental conditions typical of island settings, such as high humidity and strong winds. Careful system.

With support from the Japan-Caribbean Climate Change Partnership (J-CCCP), the Nationally Appropriate Mitigation Action (NAMA) for Suriname was formulated. The primary objective of the NAMA is to facilitate the adoption and provision of reliable access to affordable renewable energy solutions in.

PowerChina is building three hybrid solar microgrids in Suriname, combining solar panels, energy storage, and diesel backup to power 25 remote villages across the country. The construction of three hybrid solar energy plants to serve 25 villages in Suriname is underway. Work began in December on a.

A Sustainable Future for Suriname with solar energy systems Introduction
Suriname, a nation nestled in the heart of South America, is poised for a transformative shift towards a sustainable future, powered by the sun's limitless energy. As a country blessed with an abundance of sunshine, Suriname.

Suriname's Vice-President Ronnie Brunswijk and Minister of Natural Resources David Abiamofo attended the inauguration and lighting ceremony of the Botopasi Microgrid Project, part of the second phase of the Suriname Village Microgrid Solar

Project by POWERCHINA. Brunswijk praised the project team.

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

[Turbines of the Caribbean: Decarbonising Suriname's electricity mix](#)
