

Resort uses 500kwh outdoor telecom enclosure from iraq

Overview

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What is an outdoor telecom enclosure with air conditioner?

Key Features of Outdoor Telecom Enclosures Outdoor telecom enclosure with air conditioner is designed to house a variety of telecommunication equipment with 19" or 23" racking rails, they can provide protection from vandalism, dust, rain, snow and dripping water.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.
