How much is the price of large mobile energy storage vehicle The price of large mobile energy storage vehicles varies significantly based on several factors, including 1. technology used (lithium-ion, flow batteries, etc.), 2. capacity (measured in kilowatt-hours), 3. manufacturer (brand reputation).

The main contributions of this study can be summarized as Consider the source-load duality of Electric Vehicle clusters, regard Electric Vehicle clusters as mobile

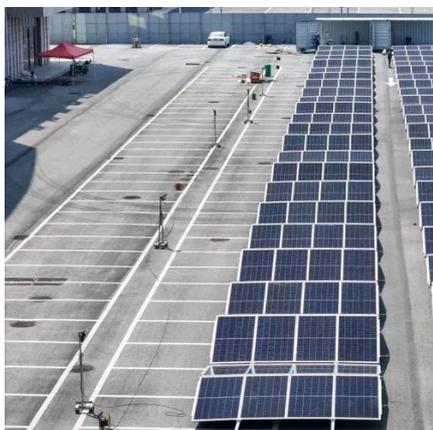

energy storage, and construct a source-grid-load-storage coordinated operation model that considers the mobile energy storage.
