

# Solar battery cabinet stacking equipment

## Overview

---

Why is XtremeStack a standardized battery rack?

Standardized modules lead to fewer spare parts to stock and simplified system upgrades. The scalability and exceptionally energy-efficient design also contribute to a low total cost of ownership. Compared to conventional battery racks, the batteries in the new grid | XtremeStack are stored upright and without gaps.

What is a SRB10 Battery Cabinet?

The SRB10 Battery Cabinet is an outdoor-rated enclosure that can hold up to 10x SR5K-UL battery modules for a total energy capacity of 50 kWh. The cabinet is outdoor-rated with automatic temperature control. Explore StackRack's modular battery systems for residential, commercial, and utility-scale projects.

Why should you choose a battery case?

Maximizing dimensional stability through the innovative design and the heavy-duty plastic of the battery case allows the carrying of the multiple weight of each individual battery and the elimination of the safe-guard-tec.
