

Solar prices in podgorica

Overview

How much does a solar auction cost in Montenegro?

Montenegro has set a ceiling price of €65 (\$76.11)/MWh for its first solar auction, which will offer 12-year contracts for difference (CfD) for up to 250 MW of capacity. The auction is scheduled to take place later this year. Image: Bojana Cupic, Vlada Crne Gore.

Does Montenegro need solar power?

In effect, Montenegro has ensured that the benefits of solar power – lower energy costs, protection from market volatility, and environmental gains – are available to those who need them most, but not only to affluent early adopters.

Is Montenegro a leader in rooftop solar energy?

In recent years, Montenegro, a small country on the Adriatic coast, has become an unexpected leader in rooftop solar energy. With more than 2,000 hours of sunshine per year, the country's natural potential has always been evident, but innovative policy design has truly driven adoption.

How much does a solar auction cost?

The auction will accept bids for solar projects with a minimum capacity of 400 kW, offering up to 250 MW of total capacity. It is the first in a planned series of market premium auctions targeting 400 MW of new solar and wind capacity. The government has set a ceiling price of €65/MWh for the auction.
