

South Africa Communication Cabinet Network-Connected Agents

Overview

What does SA connect mean for South Africa?

The programme aims to connect South Africans within 36 months (2023/24 - 2025/26) at a minimum speed of 5 Megabits per second (Mbps) for households and 10 Mbps for Government facilities, including public schools and health facilities. The revised SA Connect model, which is currently being implemented, comprises the following key interventions:.

What does the South Africa connect Department do?

Over the medium term, the department aimed to focus on coordinating the rollout of broadband internet into underserved areas through the South Africa Connect project, and on enabling digital transformation and inclusion through legislative and regulatory interventions.

What is the SA Connect Programme?

The SA Connect programme is expected to: Provide connectivity at a minimum speed of 5 Mbps for households and at 10 Megabit per second (Mbps) for government. The speeds are expected to be upgraded in the future. Leverage universal service obligations to fund the connectivity of schools.

Who is supporting South Africa connect?

The department aimed to continue rolling out the South Africa Connect project, supported by relevant state-owned entities such as Broadband Infraco (BBI), Sentech and the State Information Technology Agency (SITA).
