Ampere Energy, founded in 2015 in Spain, has become a pioneer in smart solar-plus-storage platforms. They offer modular lithium-ion battery systems tailored for residential and business use with integrated energy management. Their systems optimize solar self-consumption and deliver reliable backup.

The company specializes in energy storage, particularly in batteries and supercapacitors, offering advanced solutions and consulting services to enhance the efficiency and longevity of energy storage systems. Their multidisciplinary team works closely with manufacturers and integrators to drive.

Unlike established energy storage markets, Spain presents a unique confluence of factors creating an irresistible opportunity in the energy sector. Firstly, Spain boasts the second-highest installed solar PV capacity in Europe, only behind Germany. This solar dominance, however, presents a.

A country blessed with 300+ days of sunshine annually is now leading Europe's energy storage gold rush. Spanish energy storage companies aren't just chasing trends – they're rewriting the rules of renewable energy integration. From game-changing battery projects to mind-blowing liquid CO₂ storage.
