Below is a summary table of top generators suited for indoor use with refrigerators, selected for their power output, battery life, and practical features. The Westinghouse 194Wh Portable Power Station is a practical option for indoor use thanks to its silent, no-fuel operation.

The best indoor generators for refrigerators depends on your needs. The Westinghouse 296Wh is best for running small fridges with its 300W continuous power and pure sine wave output, while the WEN DF450i excels at powering full-size refrigerators with its robust 3500W rated power. For portable 12V.

Why We Recommend It: This model's key advantage is its 2000W continuous AC output with a peak of 4500W, enough for most refrigerators. Its expandable capacity (up to 5120Wh with an extra B2 battery) provides long-lasting power, and the fast 1400W recharge minimizes downtime. Its durable LiFePO4.
