

# Special offer for 60kw photovoltaic integrated energy storage cabinet used in steel plants

- LIQUID/AIR COOLING
- PROTECTION IP54/IP55
- PCS EMS
- BATTERY /6000 CYCLES

## Overview

---

Who makes energy storage enclosures?

Machan offers comprehensive solutions for the manufacture of energy storage enclosures. We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services.

What is the lowest cost solar carport system?

We pride ourselves on providing one of the lowest cost installed solar carport systems in the industry, backed by factory engineering and design support. The DEYE GE-FH60 is a 12-module LiFePO<sub>4</sub> cabinet that delivers 61.44 kWh at a nominal 614 V DC.

Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements.

How much energy does the ge-fh60 provide?

The GE-FH60 delivers 55 kWh of usable energy in a single IP55 cabinet, covering peak-shaving, back-up, or PV-self-consumption tasks where higher bus voltage is required. The built-in control stack eliminates external combiner gear, and UL 9540A certification simplifies permitting.

## Special offer for 60kw photovoltaic integrated energy storage cabinet

### [Integrated Energy Storage Cabinet](#)
