

State power investment corporation energy storage cabinet

Overview

What are New York state's energy storage goals?

Learn more about installed energy storage projects and New York State's progress toward its energy storage goals. New York's Climate Leadership and Community Protection Act (Climate Act) codified a goal of 1,500 MW of energy storage by 2025 and 3,000 MW by 2030.

Who owns China Power Investment Corporation (CPI) & SNPTC?

In 2015 China Power Investment Corporation (also known as CPI Group) and State Nuclear Power Technology Corporation (abb. SNPTC) merged. Before the deal, they were both directly owned by and majority controlled by the State-owned Assets Supervision and Administration Commission of the State Council respectively.

Are energy storage projects safe in New York State?

New York State has some of the most rigorous safety standards for energy storage projects in the country, reinforced by independent nationally recognized experts to ensure full compliance.

What happened to China Power Investment Corporation (SPIC)?

China Power Investment Corporation was the surviving legal person, but renaming to State Power Investment Corporation, while State Nuclear Power Technology Corporation became a subsidiary. SPIC also re-incorporated as a limited company from Industrial Enterprise Owned by the Whole People legal form in 2017.
