Voice and data communication cabinets and racks hold equipment for providing service in voice and data communication networks. Also known as server racks and cabinets, they allow users to secure their data and communication connections. Note: Product availability is real-time basis and adjusted.

With the most frame styles available in either tubular steel, aluminum, or sheet metal, our cabinets and racks provide an industry-leading standard in load capacities up to 5,000 lbs. With the most extensive array of sizes ranging from 42-52RU, heights of 600mm to 800mm (23.62" to 31.5"), and.

ZetaFrame® Cabinet is a total, turnkey solution that integrates with power, cable and thermal management accessories to support next-generation compute. Featuring an industry-leading 1500 lb (680 kg) equipment load, the Z4-Series SeismicFrame® can also support an additional 100 lb (45 kg) top load.

Our DC Series is the Data Center Standard for high-capacity, high-weight load rated, feature rich cabinets. These deployable, seismic and UL-rated cabinets are fully welded, pre-assembled, and come standard with features such as recessed

PDU Cavities, and are configurable with or without doors.
